May 2010

Dear Patient:

We want you to know that we have resumed distribution of all of our cardiac resynchronization therapy defibrillators (CRT-Ds) and implantable cardioverter defibrillators (ICDs) to hospitals in the United States. Throughout this process there has been no indication of any risk to patient safety, so there is nothing you or your heart doctor need to do differently for your implanted device.

We encourage you to contact your heart doctor or Boston Scientific Patient Services if you have questions. You can reach our Patient Services team by calling 1.866.484.3268 and pressing "2" when prompted.

Sincerely,

A handwritten signature in black ink, appearing to read "Hank Kucheman".

Hank Kucheman
